Relocation to Vancouver | 917-796-1931 | [wu.angela96@icloud.com](mailto:wu.angela96@icloud.com)/[wu.angela0@gmail.com](mailto:wu.angela0@gmail.com) | [github.com/uphonia](https://github.com/uphonia)

## Education

---

**Bachelor of Science** in Computer Science May '18  
New York University, New York, NY  
Specialization in Game Design

## Technical Skills

---

- **Languages** C, C++, Lua
- **Website Development** HTML, CSS, JavaScript
- **Operating Systems** Windows, OSX, Linux
- **Database Management** MySQL
- **Other Tools** Autodesk Maya

## Work Experience

---

**Modrokk**, New York, NY May '18 – Present  
**Software Engineer/Full Stack**

- Work closely with the engineering team to meet product requirements, goals, and desired functionality
- Proactively test the Modrokk website and provide recommendations to achieve optimal user experience across all browsers and electronic platforms
- Built and implemented a tool to facilitate game creation and modification, allowing the utilization of personally uploaded projects and already available Modrokk assets
- Redesigned sections of the website and added additional features to ensure a more attractive and efficient user experience

**Moses Center for Students with Disabilities @ NYU**, New York, NY Sep '17 – Dec '17  
**Alternative Media Technician**

- Transformed reading materials into a variety of formats of accessible media to accommodate students with disabilities
- Scanned, edited, and proofread educational documents to ensure accuracy, clarity, and consistency
- Used Omnipage and MS Word with CAT integration and MathType to format documents for processing

## Projects

---

**JobsUp** Feb '17 – Apr '17

- Collaborated in a three-person team and served as the front-end developer and project manager
- Developed and designed a website to search for jobs based on geographical location and interests
- Communicated with team members periodically to keep updated on the project development process
